

# Having A Good Journey In Raising Children

**Psalm 127:1-5**

- We are facing some major problems and challenges in raising our families in today's society (Gen. 6).
- Every other institution in society is built upon the family.
- Satan is attacking our families because he knows that if he gets the family, he gets the future.
- The importance of the family cannot be overstated.
- The family unit today is totally different from when many of us were raised.
- Whatever category you find yourself in today, remember that God is at work telling a story of restoration and redemption through us.
- No amount of human sacrifice or toil can accomplish much unless God's blessing is upon His people.

**1. Building a house or family without the Lord results in a weak base: Only He can give a firm foundation (v. 1).**

- The message was very important to Israel's future.
- The reality is, we all build our lives on something – on a system of principles, on a set of priorities, or with a particular goal in mind.
- When we make God the center of our lives and our homes, we build on a firm foundation.

**2. Protecting a city or family without the Lord results in a weak defense: Only He can give true security (v. 1).**

- This historical fact proves Solomon's statement here to be prophetic: unless the Lord guards the city the diligent work of the watchmen is in vain.
- God and God alone can provide true security.
- When we fully commit our lives and families to the Lord, we also receive His supernatural protection.
- Many of us use locks, gates, fences, and alarms to protect our homes, families, and business.

**3. Working long, hard hours without the Lord yields no lasting satisfaction: Only He can give true rest and eternal fulfillment (v. 2).**
